THE TEAM

At CLIC Cadiz we attach great importance to the culture programme, because we understand that this is a fundamental aspect for the **linguistic and cultural immersion of our students**. That is why we invite everyone to participate in this programme, which has a wide range of activities on offer: from those focused on historical and cultural aspects, such as visits to monuments or guided tours, to more recreational ones, such as excursions or sporting activities.

All our activities are organised so that students get the most out of them, always under the guidance of our **team of monitors**. They are professionals in animation and intercultural communication and they coordinate continuously to offer a complete and immersive experience of life in Cadiz. We hope to see you very soon enjoying our activities!

CULTURAL EXCHANGE

Travelling to learn a language allows us to learn first-hand about another country's culture, traditions and ways of life. As CLIC has classes in different languages, we organise language exchange activities.

By doing this, Spanish and international students can get to know each other, practice the language and talk about their cultural differences and ways of life. There will also be dynamic activities to encourage conversation.
